## **Keane Business Risk Management Solutions Launches SCORE 3.1**

*Latest version improves day-to-day use of web-based Enterprise Risk Management tool*

Wayne, PA- June 6, 2007 - Keane Business Risk Management Solutions today unveiled Keane SCORE 3.1, a suite of enhancements to its SCORE software that increases functionality and ease of use of the Enterprise Risk Management tool.

Keane SCORE is a patent-pending, web-based solution that automates and streamlines a number of key functions required to accomplish and maintain compliance in a collaborative and transparent environment. The three key components of Enterprise Risk and Compliance Management – Measurement, Management, Monitoring – are fully supported and the tool is completely flexible and customizable to meet any customer's needs in terms of scalability, business rules, terminology and user access controls.

The SCORE 3.1 enhancements, including a redesigned controls module, a new alert and reminder system, and an upgraded calendar, are all designed to improve the user experience and make risk and compliance management processes simpler and faster.

"The recent launch of our Risk-Based Capital Allocation and Audit Modules represent significant advances in the breadth of SCORE's unique capabilities," said Peter Teuten, President of Keane BRMS. "But we believe it is also important to continually update the core platform based on the needs and requests of our customers. This newest version improves usability and performance as well as delivers new features that were completely customer-driven."

In March, Keane launched the first software to address the UK Financial Services Authority's Individual Capital Adequacy Standards (ICAS) requirements with SCORE 3.0. Its Risk-Based Capital Allocation Module and integrated Audit Module provide up-to-the minute Capital-to-Risk evaluations and constant risk profiles/mappings while closing the loop between Internal Audit, Risk and Compliance.

## **ABOUT KEANE BUSINESS RISK MANAGEMENT SOLUTIONS**

Based in suburban Philadelphia, with additional offices in Baltimore and London, Keane BRMS delivers the tools and expertise to design, build or enhance comprehensive ERM and compliance programs. Our proven solutions include professional services and technology to truly Measure, Manage and Monitor risk across the enterprise in an easy and collaborative manner. Keane BRMS is a division of The Keane Organization, Inc., a leading provider of financial risk and compliance solutions to Fortune 1000 corporations, financial institutions, and mutual funds. For more than 50 years, Keane has helped clients manage state and federal compliance challenges in a way that builds economic value with customers and preserves key relationships with investors, employees, and vendors.
